"I didn't know who to ring, I'm glad you are there, and I got to speak to someone quickly"  
A quote from someone who was pleased they picked up the phone.

During the first week of lockdown the number of people contacting us for help increased by nearly 400%! Our initial focus is on helping people who found themselves in a difficult position and sharing information with people working in horticulture. Following the many changes made during last week we've updated our website with helpful information.

Don't forget, we're here to help in the following ways:

- help people understand and get access to government arrangements for financial support
- help people make arrangements to reduce or delay bill payments, including credit debts where necessary
- provide financial assistance to cover essential items, particularly food and heating

To keep up to date with the latest information do keep checking our website which contains links to all the latest information [available here](#).

Big White Wall's online programmes are evidence-based courses which are designed to help people manage a variety of mental health difficulties and improve their health and wellbeing at a pace which suits them. There are also courses available which support members with their self-development, such as assertiveness training and managing procrastination. Find out more about their courses and how to access this support network [here](#).

### We need your help too

We have sadly needed to cancel or postpone all our fundraising events planned for what is usually our busiest time of the year for garden tours and flower shows. Hence, like many charities, our fundraising income has taken a sudden dive, just at the time when demand for our help has increased hugely.

With the reduction in plant sales at a critical time of the year and the reduction in wages for many in our industry we're expecting the demands on our services teams to continue to grow over the rest of the year, and into next. So, we're asking you to please, do what you can to help us – join in with our HORTAID-20 campaign.

There are lots of ways to help fundraise from simply selecting Perennial as your charity of choice on Amazon Smile to taking part a fundraising challenge. Please [click here](#) to find out more.
